PROFESSIONAL SUMMARY

Computer Science student and MERN Stack Developer with a strong academic foundation (9.4 CGPA) and an NPTEL Elite Certification in DSA & Java (IIT Kharagpur). I build clean, scalable web applications, combining responsive React frontends with optimized Node.js/Express backends. After winning our internal Smart India Hackathon (SIH) 2025, I've focused on integrating database management (MongoDB, SQL). I'm looking to bring this blend of software engineering principles and full-stack development to a collaborative Software Developer or Web Developer role.

INTERNSHIPS / EXPERIENCE

Upflairs, MERN Stack Development Trainee 06/2026 – 07/2026

- Gaining hands-on experience building full-stack applications using MongoDB, Express.js, React, and Node.js.
- Designing responsive frontend interfaces with React while building RESTful APIs on the backend.

SmartBridge, Experiential Learning Intern – Generative AI with IBM Cloud 07/2025 – 08/2025

- Integrated pre-trained IBM Watsonx APIs with Python scripting workflows to build text-automation solutions deployed on IBM Cloud infrastructure.
- Collaborated with mentors to design and test AI-driven automation pipelines, strengthening applied skills in cloud-based generative AI tools.

Anand International College of Engineering, Web Development Trainee 08/2024

- Engineered responsive, cross-browser-compatible user interfaces using semantic HTML5, modern CSS3 layouts, and vanilla JavaScript.
- Established core performance and optimization principles later applied to building React.js-based frontend applications.

TECHNICAL SKILLS

Programming Languages

C, Java

Databases

MongoDB, MySQL

Core CS Concepts

Data Structures & Algorithms (Java), OOP

Frontend Development

HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap

Backend Development

Node.js, Express.js

ACHIEVEMENTS

- Secured a perfect 10.0 SGPA in the 5th Semester of B.Tech CSE while maintaining a consistent overall 9.4 CGPA.
- Won 1st Position in the college-level Coding Competition, debugging and solving complex algorithmic challenges under strict time constraints.
- Won the Internal Hackathon at Anand-ICE for Smart India Hackathon (SIH), collaborating in a team to build solutions for real-world problem statements.
- Earned Elite certifications from IIT Kharagpur in DSA (Java) and Programming in Java, ranking among the top tier nationally.

PROJECTS

Essentials.in (E-Commerce Web Application | MERN Stack)

- Engineered a complete online storefront from scratch using MongoDB, Express.js, React.js, and Node.js, prioritizing a modular component structure and scalable database schemas over generic templates.
- Implemented React Hooks and robust state management to handle real-time client-side product filtering, live search queries, and instant shopping cart updates without page reloads.

Interactive Quiz Platform (MERN Stack)

- Built a full-stack MERN application with dynamic countdown timers, search/filter capabilities, and interactive user dashboards.
- Designed dynamic RESTful APIs and MongoDB schemas to support complete CRUD operations for quiz categories and questions.

Portfolio Website

- Crafted a fully responsive, accessible user interface using Tailwind CSS, featuring custom transitions, an optimized dark/light mode toggle, and fast page-load speeds.

EDUCATION

B.Tech, Computer Science & Engineering, Anand International College of Engineering, Jaipur 2023 – 2027
Current CGPA: 9.4/10 (Perfect 10.0 SGPA in Semester 5)

Class XII (RBSE), Saint Lawrence Public School 2023
Percentage: 90.8%

Class X (RBSE), Saint Lawrence Public School 2021
Percentage: 97%

CERTIFICATIONS

- NPTEL Elite Certification (Java & DSA) | IIT Kharagpur
- Web Development Practical Training — Anand International College of Engineering
- Programming in Java (Elite) — NPTEL, IIT Kharagpur
- Linux & BASH Shell Scripting — Spoken Tutorial, IIT Bombay (Score: 100% / 86.67%)
- Experiential Learning on IBM Cloud (Generative AI) — SmartBridge, 2025
